

Bengali Dataset Catalog

A comprehensive collection of Bengali (Bangla) datasets for text and vision research. Last updated: May 2026

Table of Contents

1. Text Datasets
 - 1.1 Pretraining & Large Corpora
 - 1.2 Instruction Tuning & Chat
 - 1.3 Sentiment Analysis
 - 1.4 Named Entity Recognition (NER)
 - 1.5 Question Answering & Reading Comprehension
 - 1.6 Machine Translation
 - 1.7 Text Summarization
 - 1.8 Natural Language Inference (NLI)
 - 1.9 Hate Speech & Offensive Language
 - 1.10 Cyberbullying Detection
 - 1.11 Fake News & Misinformation
 - 1.12 Emotion Detection
 - 1.13 News Classification
 - 1.14 NLG Benchmarks
 - 1.15 LLM Evaluation Benchmarks
 - 1.16 POS Tagging & Parsing
 - 1.17 Speech / ASR
 - 1.18 Creative Text (Poetry, Story)
 2. Image / Vision Datasets
 - 2.1 Handwritten Character & Digit Recognition
 - 2.2 Handwritten Word & Document
 - 2.3 Printed Text / OCR
 - 2.4 Scene Text Detection & Recognition
 - 2.5 Document Layout Analysis
 - 2.6 Image Captioning
 - 2.7 Visual Question Answering (VQA)
 - 2.8 Multimodal Hate Speech / Meme
 3. Key Hubs & Collections
-

1. Text Datasets

1.1 Pretraining & Large Corpora

Dataset	Size	Notes	Link
CC-100 (Bengali)	~27 GB	Facebook CommonCrawl monolingual Bengali corpus; widely used for LM pretraining	HuggingFace
OSCAR (Bengali)	Large	Filtered CommonCrawl via go- classy/ungoliant; multilingual, includes Bengali	OSCAR / HF
Bengali Wikipedia Corpus	~300 MB	Wikipedia dump for Bengali; used to train Bangla-BERT	Kaggle
IndicCorp (Bengali subset)	~8.9 GB	Part of AI4Bharat’s large Indic pretraining corpus	AI4Bharat
IndicLLMSuite (Bengali)	Large (22 langs)	Largest pretraining + instruction- tuning data for 22 Indic languages (2024)	AI4Bharat GitHub
TituLLMs Pretraining Corpus	~37B tokens	Custom large corpus used to train TituLLMs family (2025); covers Bangla web, books, Wikipedia	arXiv
sagorbrur/bangla- corpus	Curated list	Aggregated list of Bangla NLP corpora from multiple sources	GitHub
Bangla- TextBook Corpus	10M tokens	High-quality educational Bengali text	HuggingFace

1.2 Instruction Tuning & Chat

Dataset	Size	Notes	Link
Bangla-Instruct	100K pairs	Native Bangla instruction-response pairs; generated via self-instruct & teacher models	HuggingFace
bangla-orca	~132K entries	Used to fine-tune BanglaLlama; instruction-following dataset	arXiv (BanglaLlama)
Mahadih534 LLM Finetuning Collection	Multiple datasets	Curated Hugging Face collection of Bangla datasets for LLM instruction tuning	HuggingFace Collection
Mahadih534 NLP Datasets Collection	Multiple datasets	Broader collection covering NER, sentiment, QA, and more	HuggingFace Collection
Foysal87/Bangla-NLP-Dataset	Multiple tasks	NER, POS, summarization, stopwords, translation, sentiment, wiki articles	GitHub

1.3 Sentiment Analysis

Dataset	Size	Notes	Link
BangDSA	203,493 comments	Document-level sentiment; 15 + 3 category labels; microblogging data (2024)	ScienceDirect
BanglaSenti	—	Dataset of Bangla words for sentiment analysis	ResearchGate

Dataset	Size	Notes	Link
BanglaBook	158,065 samples	Large-scale book reviews dataset (2023)	ACL Anthology
BnSentMix	20,000 samples	Bengali-English code-mixed; 4 sentiment classes: positive, negative, neutral, mixed; YouTube, Facebook, e-commerce	—
BEmoC Corpus	—	Emotion-based sentiment corpus beyond simple polarity; Bengali texts	—
Crisis Sentiment Dataset	2,028 headlines	July–August 2024 Bangladesh mass uprising news; Out-rage/Hope/Despair labels	arXiv
English-Bengali Code-Mixed (E-commerce)	—	Synthetic code-mixed product review dataset; sentiment for Bangladeshi e-commerce (2025)	ETASR
Motamot	—	Bengali political sentiment dataset; designed to benchmark LLMs vs Transformers	ResearchGate
Bengali Depression Dataset	—	Sentiment analysis on depression-related Bengali text	SemanticScholar

1.4 Named Entity Recognition (NER)

Dataset	Size	Notes	Link
WikiANN (Bengali)	—	Cross-lingual NER dataset derived from Wikipedia; used to evaluate mBERT, BanglaBERT	HuggingFace
Bangla NER (Foysal87)	—	Bengali NER annotations bundled with POS and other tasks	GitHub
likhonsheikh/BanglaNLP		Bengali NLP collection including NER	HuggingFace

1.5 Question Answering & Reading Comprehension

Dataset	Size	Notes	Link
BanglaQuAD	30,808 pairs	Bengali MRC from Wikipedia; 24,646 train / 6,162 test; unanswerable questions included	arXiv
UDDIPOK	3,636 pairs	Crowd-sourced QA from newspaper, textbook, exam questions; 2,908 train / 728 test	ScienceDirect
NCTB-QA	87,805 pairs	Bengali educational QA from NCTB textbooks; reading comprehension focused (2025)	arXiv

Dataset	Size	Notes	Link
SQuAD-Bengali (translated)	~87K pairs	Machine-translated SQuAD 2.0 to Bengali; used for transfer learning baseline	ResearchGate
Bengali QA (Kaggle)	—	Bengali question-answering dataset on Kaggle	Kaggle
BQuAD	—	Bengali QA dataset annotated from Wikipedia with popular Bangladeshi culture topics	—
Belebele (Bengali)	—	Parallel reading comprehension in 122 language variants including Bengali and romanized Bengali	arXiv
Scientist173 QA Dataset	—	Questions, answers, paragraphs for Bengali QA model training	GitHub

1.6 Machine Translation

Dataset	Size	Notes	Link
BanglaNMT	2.75M pairs	Largest Bengali-English MT dataset; 2M+ previously unavailable pairs	HuggingFace

Dataset	Size	Notes	Link
SUPara-Benchmark	21,158 pairs	English-Bengali parallel corpus; literature, administrative, journalistic, property texts	IEEE DataPort
IndicTrans2 (Bengali)	Very large	AI4Bharat’s 22-language MT model trained on massive parallel data, includes Bengali	AI4Bharat
English-Bengali Conversational	5,600 pairs	Short daily conversations; updated April 2023	—

1.7 Text Summarization

Dataset	Size	Notes	Link
XLSum (Bengali)	Large	BBC News Bengali articles with professionally annotated summaries; cross-lingual	ACL / HuggingFace
Bengali ChartSumm	4,100 chart images + text	Chart-to-text summarization benchmark (2025); includes mT5, BanglaT5 baselines	ACL Anthology
Bangla Abstractive Summarization Dataset	—	Document-summary pairs for abstractive summarization; CNN/DailyMail style	EmergentMind

Dataset	Size	Notes	Link
BanglaNLG Summarization Benchmark	Part of BanglaNLG	Six NLG tasks aggregated; includes summarization with BanglaT5 baseline	ACL Anthology

1.8 Natural Language Inference (NLI)

Dataset	Size	Notes	Link
BNLI	—	High-quality, linguistically refined Bengali NLI dataset; entailment/contradiction/neutral (2024)	arXiv
IndicGLUE NLI (Bengali)	—	Bengali NLI benchmark as part of AI4Bharat’s IndicGLUE suite	HuggingFace

1.9 Hate Speech & Offensive Language

Dataset	Size	Notes	Link
Bengali Hate Speech Dataset (Rezacsedu)	—	Multi-class: political, religious, personal, gender-abusive, geopolitical	GitHub
BengaliSent140	~140,000	~68K hateful / ~71K non-hateful; IEEE DataPort (2024)	IEEE DataPort

Dataset	Size	Notes	Link
BD-SHS	50,200+	Offensive comments from social media; 60%+ larger than prior datasets	—
BANTH	—	First multi-label transliterated Bangla hate speech dataset (2024)	—
Bengali Toxic Comment Dataset	16,073 samples	8,488 toxic instances; 6 toxic categories; deep learning benchmark	—
naurosromim Hate Speech Dataset	—	Bengali hate speech from social media	Kaggle / GitHub
UCI Bengali Hate Speech	—	UCI ML Repository archived dataset	UCI
BIDWESH	—	Regional-dialect-based Bangla hate speech detection (2025)	arXiv

1.10 Cyberbullying Detection

Dataset	Size	Notes	Link
Bengali Cyberbullying Dataset (CBD)	2,751 texts	5-class manually labeled; XLM-RoBERTa best performer (F1=0.83)	ScienceDirect
Social Media Cyberbullying Dataset	12,282 comments	Multi-source social media comments; deep learning benchmark	arXiv

Dataset	Size	Notes	Link
Bangla + Chittagonian Dataset	5,000+ samples	Covers both dialects; ML + DL baselines	MDPI

1.11 Fake News & Misinformation

Dataset	Size	Notes	Link
BanglaFakeNews	—	Bengali fake news detection dataset; sourced from Bangladeshi news portals	—

1.12 Emotion Detection

Dataset	Size	Notes	Link
Bengali & Banglish Emotion Dataset	80,098 entries	6 Ekman emotion categories; anger (15K), joy (17K), sadness (16K), etc.	Mendeley Data

1.13 News Classification

Dataset	Size	Notes	Link
Bengali News Classification (AI4Bharat)	—	News articles tagged with news category; part of IndicGLUE	IndicGLUE

1.14 NLG Benchmarks

Dataset	Size	Notes	Link
BanglaNLG	6 tasks	Dialogue generation, MT, summarization, question generation, etc.; BanglaT5 baseline	ACL Anthology

1.15 LLM Evaluation Benchmarks

Dataset	Size	Notes	Link
BnMMLU	134,375 MCQs	41 domains (STEM, humanities, social science); most extensive Bengali eval suite (May 2025)	arXiv
BLUB Suite (TituLLMs)	5 datasets	CommonsenseQA, OpenBookQA, PIQA, world knowledge tasks for Bangla (2025)	arXiv
BanglaMATH	—	Grade 6-8 math reasoning benchmark for Bengali LLMs	ACL Anthology
BanglaSocialBench	—	Sociopragmatic and cultural alignment of LLMs in Bangladeshi social interaction (2025)	arXiv
BanglaBERT Benchmarks	Multiple	Benchmarks from BanglaBERT paper: NLI, QA, sentiment, NER	Academia

1.16 POS Tagging & Parsing

Dataset	Size	Notes	Link
Bangla POS Dataset (Foysal87)	—	POS-tagged Bengali text; part of Bangla-NLP-Dataset repository	GitHub

1.17 Speech / ASR

Dataset	Size	Notes	Link
OpenSLR Bengali ASR	~196K utterances	Large Bengali ASR training data	OpenSLR
Bengali.AI OOD-Speech	23.03 hours test	17 source types: drama, audiobooks, talk shows, classes, sermons; for out-of-distribution benchmarking	Bengali.AI / arXiv
Mozilla Common Voice (Bengali)	400+ hours	Community-crowdsourced speech; growing rapidly	—
Bengali Voice Commerce Dataset	3,344 samples	80 native speakers (45M/35F); e-commerce domain audio	Mendeley Data
BanglaNum	Digit audio	Spoken digits 0-9; 98.23% SqueezeNet accuracy	arXiv
Bengali General Conversation	—	Real-world unscripted Bengali (India) conversations; manual transcriptions	FutureBeeAI

Dataset	Size	Notes	Link
MediBeng (Code-switched)	—	Synthetic Bengali-English code-mixed speech for medical ASR (2025)	medRxiv

1.18 Creative Text (Poetry, Story)

Dataset	Size	Notes	Link
Bengali Poem Dataset	6,070 poems	Stylometric dataset; 137 poets; first of its kind	GitHub
Bengali Poem Corpus (web-scraped)	~35,000 poems	90M+ words from online sources; used for generation research	—
Bengali Story Corpus	—	Works by Tagore, Humayun Ahmed; used for automated story writing	GitHub

2. Image / Vision Datasets

2.1 Handwritten Character & Digit Recognition

Dataset	Size	Notes	Link
BanglaLekha-Isolated	166,105 images	84 character classes (10 numerals, 50 basic, 24 compound); 2,000 samples/class	arXiv

Dataset	Size	Notes	Link
CMATERdb 3.1.2	24,000 images	50 distinct Bengali basic characters; 480 images/class; balanced	—
Bengali.AI Grapheme Dataset	411,000+ images	1,295 unique grapheme classes including kar and fola; used in Kaggle competition	Kaggle Competition
NumtaDB (Bengali Handwritten Digits)	Large	Bengali AI digit recognition; Kaggle competition dataset	Kaggle
Bangla Handwritten Consonant & Vowel Dataset	—	58 classes: 36 consonants, 10 dependent vowels, 12 independent vowels; OCR-focused (2025)	IEEE DataPort
CBD2023	—	Hypercomplex Bangla handwriting dataset for hierarchical class expansion	PMC
Ekush	—	Bangla handwritten characters dataset for recognition research	Rabby.dev/ekush
Bengali Handwritten Digit Dataset	—	Additional digit recognition dataset on Kaggle	Kaggle

2.2 Handwritten Word & Document

Dataset	Size	Notes	Link
BanglaWriting	Large	Peer-reviewed handwritten image dataset; 0.091 CER and 0.273 WER with DenseNet121	GitHub
Bengali Word OCR Dataset	—	Bengali handwritten word-level OCR dataset	GitHub
BeHGAN Dataset	—	Handwritten word generation from plain text using GANs (2025)	arXiv

2.3 Printed Text / OCR

Dataset	Size	Notes	Link
Gold Standard Bangla OCR Dataset	4M+ annotated images	Computer Composed, Letterpress, Typewriters, Outdoor Banner-Poster, Handwritten doc types	ACL Anthology
BengaliPrintDB	12,187 images	Machine-printed Bengali documents in 7 fonts (augmented to 77,728 samples)	Mendeley Data
BanglaFont45	28,000 images	45 font classes for Bengali font detection and classification	Journal

2.4 Scene Text Detection & Recognition

Dataset	Size	Notes	Link
Bengali Scene Text (Crowd-sourced)	—	Crowdsource-based framework for collection and detection of Bengali scene text (2023)	ScienceDirect
IndicSTR12 (Bengali subset)	1,000+ word images	12 major Indian languages including Bengali; roadside scene images (GoPro)	IIIT CVIT
IIIT-IndicSTR-Word (Bengali subset)	250K word images	10 Indic languages including Bengali; roadside scene text	IIIT CVIT
Bharat Scene Text (Bengali subset)	—	Novel comprehensive dataset for Indian language scene text understanding (2024)	arXiv

2.5 Document Layout Analysis

Dataset	Size	Notes	Link
BaDLAD	33,695 document images	6 domains: books/magazines, government docs, liberation war docs, new/historical newspapers, property deeds; 710K polygon annotations; 4 unit types	Bengali.AI / arXiv

2.6 Image Captioning

Dataset	Size	Notes	Link
BAN-Cap	Flickr8k scale	Bangla captions collected by qualified annotators; diverse styles	—
BanglaView	31,783 images / 158,915 sentences	Inspired by Flickr30k; English captions translated and refined by expert annotators	Mendeley Data
BanglaLekhaImageCaptions	60,541 images	Two annotations per image	—
English-Bangla Image Descriptions	—	Multi-purpose parallel image description dataset	ACL Anthology

2.7 Visual Question Answering (VQA)

Dataset	Size	Notes	Link
Bengali VQA Dataset (FutureBeeAI)	5,000 images / 35,000+ QA pairs	Diverse images; multiple question types; commercial use permitted	FutureBeeAI
Bengali VQA (manual annotation)	—	Manually annotated without machine translation; balanced with contextually similar questions	—

2.8 Multimodal Hate Speech / Meme

Dataset	Size	Notes	Link
BHM (Bengali Hateful Memes)	7,148 memes	Bengali and code-mixed captions; 2 tasks: hateful detection + target entity detection; ACL/EACL 2024	GitHub
Bn-HIB	3,247 memes	Labeled Hate / Benign / Inflammatory Bengali memes	arXiv
BanglaAbuseMeme	—	Bengali abusive meme classification dataset	SemanticScholar
Bengali Meme Sentiment	—	Explainable multimodal sentiment analysis on Bengali memes (2024)	arXiv

3. Key Hubs & Collections

Resource	Description	Link
Bengali.AI	Non-profit; OOD-Speech, BaDLAD, Grapheme competition datasets	bengali.ai / HuggingFace
CSE BUET NLP	BanglaBERT, BanglaNMT, XLSum Bengali, BanglaNLG	HuggingFace: csebuetnlp
AI4Bharat IndicNLP Catalog	Comprehensive catalog of NLP resources for all Indic languages including Bengali	GitHub / Website
Mahadih534 HuggingFace Collections	Curated Bengali LLM + NLP dataset collections	HuggingFace

Resource	Description	Link
Foysal87/Bangla-NLP-Dataset (GitHub)	NER, POS, summarization, translation, sentiment, wiki data	GitHub
IEEE DataPort (Bengali)	Several Bengali datasets archived officially	IEEE DataPort
Mendeley Data (Bengali)	Various Bengali datasets including speech, images, captions	Mendeley Data
IIIT CVIT (Indic Scene Text)	Scene text recognition datasets for Indic scripts including Bengali	CVIT
Bengali GitHub Topics	Active Bengali OCR and NLP repos on GitHub	GitHub: bangla-ocr / bengali-nlp

This catalog will be updated as new datasets are released. For the latest additions, check [HuggingFace \(language=bengali\)](#), the [AI4Bharat IndicNLP catalog](#), and [Bengali.AI](#).
